### 7 Strategies for Getting the Right Things Done

- 1. Get clear on what's important to you.**
- 2. Start your day a day early.** Take the time at the end of each day to think about the 3 most important things you want to accomplish the next day. Write them down.
- 3. Get a good night's sleep.** It is amazing how brilliant ideas just flow when you are rested.
- 4. Understand your high and low energy times.** Plan and complete the more brain intensive work during your high-energy time.
- 5. Work in blocks of time.** Instead of multi-tasking, focus on one thing at a time. Brain studies show that the quality and quantity of our work goes up when we don't multi-task.
- 6. Stay focused throughout the day on your top 3 goals.**
- 7. Reflect at the end of the day and learn.** Take 5 minutes at the end of your day to reflect.

### What is your favorite quote?

*"Life should not be a journey to the grave with the intention of arriving safely in a pretty and well preserved body, but rather to skid in broadside in a cloud of smoke, thoroughly used up, totally worn out, and loudly proclaiming 'Wow! What a Ride!'"*  
-Hunter S. Thompson
